

Monaghan Carbury truck loading system

At Monaghan Carbury an extension of the existing site is finished recently. Among the new installed equipment is a truck loading system which consists of a sequence of conveyors. Platforms along the loading area make it possible to get an even distribution in the trailer and to secure the load for a save trip.

The image above shows the design, the picture below shows the final result.

On our website www.hoving-holland.nl you can find information about our company and the custom made equipment from our delivery program. Also former Newsflashes can be found here.
